

“If I had to sum up the system in a few words: it’s pure enjoyment.”

– Henk Heesbeen, FitXpert

SOUND SYSTEM SOLUTIONS

FITNESS CENTERS

Atmospheric audio areas

Amp up the energy

Create an immersive exercise experience – all the power you need to turn it up for the most intense workouts, and always with big bass performance on tap.

Atmosphere

For lobbies, locker rooms and other non-workout areas, we offer acoustically and aesthetically matched options for high-quality paging and background music. Set the right audio ambience with seamless coverage throughout your facility.

Controlled coverage

Achieve sonic clarity and control in the most challenging acoustical environments with installed loudspeaker systems designed specifically for highly reverberant spaces.

Ease of use

Simple zone and level controls for installed audio systems help your staff focus on helping customers achieve their fitness goals. Plug-and-play portable solutions are quick to set up and easy to use, ensuring every room can be equipped with the sound quality you need, when and where you need it.

Flexible options

Our extensive speaker portfolio includes ceiling, pendant, portable and surface-mount models, giving you background and foreground music options to suit every space and every budget – always with best-in-class sound quality and reliability.

FITNESS CENTERS

EXAMPLE FOR BACKGROUND AUDIO

System overview

EVID pendant and surface-mount loudspeakers provide full range coverage for cardio floors, weight training and common areas. EVID subwoofers can be added for additional low-end support.

System benefits

The EVID loudspeaker family is designed to be mixed and matched together depending on the installation environment.

Protection against excessive power and overheating through tour-grade circuitry in C series amps.

System and group control and supervision through easy-to-use system software.

DYNACORD | AMPLIFIERS

1x C1800FDi (full-range loudspeakers)

1x C1300FDi (subs)

ELECTRO-VOICE | LOUDSPEAKERS

2x EVID-P6.2 (pendants - for open ceilings)

2x EVID-S5.2 (surface-mount full-range loudspeakers)

2x EVID-S10.1D (subs)

If you need it, we've got it

The EVID (EV Innovative Design) family is the industry's most complete family of commercial loudspeaker solutions, with acoustically and aesthetically matched surface-mount, ceiling-mount, pendant-mount and flush-mount models for spaces of every size and shape, indoors or outdoors.

Models from each series may be mixed and matched for consistent performance across any installation, providing system designers with complementary building blocks to address the needs of a wide range of venues and acoustical challenges.
